EDUCATION

Georgia Institute of Technology

M.S. in Computer Science (OMSCS)

Relevant Coursework: Machine Learning for Trading (CS 7646)

Online

Expected graduation: 2027

Bethany Lutheran College

B.A. Mathematics and B.A. Computer Science

GPA: 3.96 | Summa Cum Laude

Mankato, MN

May 2023

TECHNICAL SKILLS

- **Languages:** C#, Python, Java, SQL, Swift, Objective-C, JavaScript
- **Application:** .NET MAUI, REST APIs, API Integration, GraphQL, SQL Server, SQLite
- **Cloud/DevOps:** AWS (Lambda, S3, Cognito, AppSync), Azure DevOps, GitHub Actions, CI/CD
- **Tools:** Git, Jira, ServiceNow, Dynatrace, Xcode, Power BI
- **Enterprise:** Infor CloudSuite Industrial (LN), ERP Implementation, System Integration, Business Process Analysis

EXPERIENCE

Andersen Corporation

Software Engineer I – ERP Business Systems

Associate Software Engineer – ERP Business Systems

Bayport, MN / Remote

Oct 2025 - Present

May 2025 - Sept 2025

- Bridge business, technology, and data teams throughout the Infor CloudSuite Industrial (LN) ERP implementation, with a focus on **Supply Chain and Operations**.
- Partner with the data team to **extract, transform, cleanse, and validate data across 11+ legacy ERP systems** for migration into LN.
- Develop **technical specifications** and contribute to the **architecture of system integrations** connecting LN with legacy applications, data sources, and existing business processes.
- Support **Order to Cash and Source to Pay** process design, requirements, testing, and implementation.

Associate Software Engineer – IT Rotational Program

June 2023 - May 2025

- Completed an 18-month IT rotation spanning **application development, ERP implementation, and IT operations**.
- Developed internal sales and quoting applications using **Swift, Objective-C, and .NET MAUI**.
- Implemented **Dynatrace monitoring and an in-app messaging platform** supporting field and sales users.
- Built and tested **Infor LN extensions** and provided Tier 1/Tier 2 support through ServiceNow.

Software Engineer Intern – Supply Chain Technology

May 2022 - May 2023

- Developed C#/.NET functionality integrating **REST APIs and SQL data sources** for real-time reporting and operational workflows.
- Automated data retrieval and record updates to improve operational visibility and reduce manual work.
- Worked with QA, business stakeholders, and end users to **refine requirements, test features, and troubleshoot issues**.

PROJECTS

SmartChef (Personal Project)

2024 - 2025

- Built a full-stack iOS meal-planning app using **SwiftUI and AWS**, including Lambda, AppSync, Cognito, and S3.
- Developed personalized meal planning and automated grocery-list features using recipe, nutrition, and user-preference data.
